

BULK, REEFER, RO/RO AND SHIPMANAGEMENT

MAESTRO OFFERS A FLEET OF COST EFFECTIVE AND WELL MAINTAINED CARRIERS.

WHY MAESTRO?

OUR TRUE VALUE IS OUR PERFORMANCE

We know that performance is as important to us as to our customers. We strive to select our partners with care and in turn offer first class vessels that are managed by a top professional team to secure the complete fulfilment of contracts.

PROFESSIONAL SHIPMANAGEMENT

A high standard of technical management remains at the core of our successful operation. We carefully monitor technical performance, assess and control vessel maintenance needs. Procedures, such as computer-based training programmes, electronic charting and electronic document handling, ensures we meet regulatory requirements and remain best in class.

SAFETY AND QUALITY AT SEA

Maestro is certified in accordance with Safety at Sea (SOLAS), International Safety Management (ISM) as adopted by the International Maritime Organization (IMO).

Bulk

The Maestro Bulk activities operate vessels worldwide with a particular focus on trading in the Handy to Supramax segment.

Reefer

Maestro Reefers is one of the strongest independent companies operating in today's Reefer market.

RO/RO

The RO/RO fleet of the Maestro Group consists of 3 sister vessels. The vessels' low consumption and size are ideal in today's market environment where fuel efficiency is a must.

Ship Management

A high standard of technical management remains at the core of our successful operation.

BULK

The Maestro Bulk activities operate vessels world-wide with a particular focus on trading in the Handy to Supramax segment. The group has a strong team with solid experience divided between offices in Australia, Denmark and Switzerland.

Our fleet consists of owned and time chartered tonnage ensuring first class performance towards its customers. It is available for all forms of business from spot voyages to Contracts of Affreightment or Time Charter.

OUR OWNED BULK FLEET

NAME	DWAT	DRAFT M SSW	CRANES/GRABS	CBF	HO/HA	BUILT	NATIONALITY
Maestro Diamond	36,920	10.869	4 x 36 MT	1,617,090	5/5	2015	Marshall Islands

REEFERS

Maestro Reefers is one of the strongest independent companies operating in today's reefer market. Our personnel is amongst the most experienced and widely recognized in this very specialized industry. Our commercial office in Copenhagen is looking after the chartering and operation of a fleet of six large, economic and flexible reefers.

We are trading worldwide, especially carrying everything that needs sophisticated carriage control, from fresh fruit to frozen fish, but also clean dry cargoes such as cars.

SHIP MANAGEMENT SERVICES

OUR TRUE VALUE IS OUR PERFORMANCE

YOUR SHIPS AS WELL AS OURS

A high standard of technical management and first class crew remains at the core of our successful operation. Based in Limassol, Cyprus our qualified and experienced shore staff are on hand at all times to monitor technical performance, assess and control vessel maintenance needs and overall to ensure that the fleet's technical operation remains reliable, without risk of harm to the environment, the crew or third parties.

STRIVING TO HEIGHTEN SAFETY

Environmental and safety issues have always been integral to Maestro's way of conducting business. The Company is continuously striving to heighten safety for our staff at sea. Protecting the environment is constantly in focus, as well.

JOIN OUR EXPERIENCED TEAM AT SEA

Maestro Shipmanagement manages a quality fleet of Bulk, Reefer and RO/RO vessels, employing proven and professional crew of various nationalities on board. We pride ourselves in providing excellent living conditions, a market-competitive employment package and a structured career path for selected candidates.

SAFETY AND QUALITY AT SEA

The Maestro Group is as technical managers of Bulk, Reefer and RO/RO vessels, certified in accordance with Safety at Sea (SOLAS), and International Safety Management (ISM) as adopted by the International Maritime Organization (IMO).

BEST IN CLASS

Our existing procedures, such as computer-based training programmes, electronic charting and electronic document handling, are particularly helpful in our efforts to meet regulatory requirements and remain best in class among our peers in the shipping industry.

Most of our crews have been returning to the fleet time and time again, thereby enjoying a steady work/leave rotation and a strong rapport with the management team ashore, built up over their extended period of time with us.

From time to time, vacancies arise within the fleet for specific positions and we would welcome applications sent via e-mail to recruitment@maestroshipman.com from suitably qualified and experienced candidates.
